5 Advanced Blades - Efficient and Gentle Shave in Every Pass.

To discover the secret to this cutting performance, just click on buttons 2 through to 5.

Panasonic's Sharpest Blades

The durable Japanese stainless-steel foils are designed for years of gentle shaves. Based on the art of the Samurai sword-making tradition, our shaver is designed with the most durable inner blades that are nano-sharpened to just 30 degrees. They can cut through the thickest stubble efficiently with a minimal number of strokes needed, so there's no damage to skin, leaving your face smooth and tactile.

Ultra-fast Linear Motor for a Smooth Shave

Our ultra-fast linear motor with 70,000 cross-cutting actions per minute will provide a clean, long-lasting shave with a steady cutting speed, no matter how thick your beard. With advanced mag-lev technology, the shaver uses the world's strongest magnets to deliver a smooth and clean-cut shave.

Beard Sensor Personalizes Your Shave

Benefit from a bespoke shave with our Beard Sensor Technology that adapts the power to suit your face contours, stubble thickness and density. The power will boost where beard growth is heavy and reduce in other areas to prevent skin irritation offering you the most comfortable shave.

Unique 20D Flexible Shaver Head

Flexibility is key when it comes to limiting the number of strokes needed for a close shave, which is why the Series 900 comes equipped with a 20D Flexible Shaver Head. The head moves in 10 directions and the 5 blades move in 10 directions independently - both vertically and horizontally - and follow the contours of the face.

Other Features

Versatile Pop-up Trimmer

With its durable stainless-steel blades with a 45-degree edge, our pop-up trimmer is designed for pre-shave cutting and detailed grooming. Sharp and precise, it has been crafted with convenience in mind.

Wet or Dry Use

You can shave dry, with gel or foam and take the waterproof design into the shower. Whatever your preference, you can enjoy a smooth and gentle shave every time.

Easy to Clean

Simply run the shaver under the tap to remove sebum and beard clippings.

Premium and Ergonomic Design

With its sophisticated matte black finish, the shapely design sits comfortably in hand so you can shave with ease. The shaver's LED indicator shows battery status in 5 steps and operation status at a glance.
